—Here we are again with the Boss Binder and over, the Walter A. Woods. Also the much improved and honest made wagon, the Orchard City. Have sold the above goods for five years with satisfaction to the buyer and found them superior to any in the line. We sell Binding Twine, Hay Rakes, etc. Come and see me. Will try to please you. H. C. Schmit, Oregon, Mo.

—Oregon, from reliable information at hand, is not unlikely to secure a through trunk line soon. The interstate commerce law works a hardship on the Chicago, Milwaukee & St. Paul railroad, and to overcome this they must have a direct line, from a point sixty-one miles east of Mantilla, Iowa, to St. Joseph. The survey is now being made, and the informant said that the most feasible route would be down the divide, through Rockport (perhaps) and Oregon. If there be any truth in the report that this road is to be built Oregon should lose no time in preparing to give it a welcome.—St. Joseph Times.

—The Walter A. Woods is the strongest, but the lightest in weight and draft, and is the best and most reliable harvester and binder made in the world, and don't you forget it. H. C. Schmit, agent, Oregon, Mo.

—The Stainhamer boys who were arrested last week for shooting at one of Bigelow, had their examination before Squire Alkire on Saturday last, and were acquitted.

—The Kansas City Times has just published a neat pamphlet entitled "The Debate on the Tariff," which contains President Cleveland's message to Congress, Mr. Blaine's criticism on the message, and all the principal speeches delivered this session for and against the Mill's Tariff Bill. As a campaign document it is invaluable.

—Jack Lunsford, who shot and killed Bill Hume, was brought up from Oregon by Deputy Sheriff Morrison on Wednesday. His preliminary trial was to have taken place on that day, but owing to the absence of John Stokes, Lunsford's attorney, the case was postponed until Thursday, June 14th. Inasmuch as Hume has died, Lunsford will probably waive examination.—Leader.

—Everybody attending the convention last week, speak in the highest praise as being one of the grandest meetings ever held in the county. Holt county can well be proud of her facilities for fruit growing and Oregon as being the ideal orchard city of the State. Her citizens know how to royally entertain her guests. Thanks to the leaders of the Holt County Horticultural Society for securing to Oregon last week's grand treat.

—An enthusiastic meeting was held at Mayor Alkire's office on Monday evening for the purpose of discussing the advisability of having a Fourth of July celebration. It was the sense of the meeting that we observe the Nation's birthday with appropriate ceremonies. Clark Proud presided with his usual energy. Several committees were appointed to make preparation for the event. There will be speaking, fireworks and such other features as will add merriment and interest to the demonstration. This will be the first observance of a national holiday this year and it is hoped that the citizens will exhibit their usual zeal in making this one a success. It will bring a large crowd to the city and the patronage will prove a paying investment. A soliciting committee will give the business interests here represented, a call, and money given to bring about a successful meeting will be repaid by an increase of trade.

HURRAH!

Court Yard Park, OREGON, MISSOURI.

Quite a number of the citizens met at the Mayor's office, Monday evening, June 11th, pursuant to call, for the purpose of arranging for the celebration at our city on the coming 4th of July.

C. O. Proud was chosen chairman of the meeting and W. R. Hoffmann secretary.

Mayor Alkire stated the object of the meeting, and upon the report of the committee, consisting of T. S. Hinde, Joseph Graham and J. H. Nies, who were appointed to wait upon Park Commissioner, Levi Zook, it was decided to celebrate the 4th of July at the Court House Park in our city.

The following committees were then appointed:

Executive Committee—E. P. Hostetter, H. T. Alkire, Prof. Kieff, L. I. Moore and J. T. Thatcher.

Committee on Entertainment—Geo. W. Cummins, Robert Montgomery, Sam O'Fallon, D. S. Alkire and Dr. Goslin.

Soliciting Committee—E. L. Boham, Mont Austin, T. S. Hinde.

Chairman of Committee on Music—W. R. Hoffmann.

All other matters not provided for referred to the Executive Committee.

After a long discussion it was decided to have a display of fire works.

On motion, meeting adjourned to meet Saturday night, June 23rd, at the Mayor's office.

W. R. HOFFMANN, Secretary.
C. O. PROUD, President.

15 Pounds Good Sugar for \$1.00 at Wyllie's, Forest City.

—The W. C. T. U. of Forest City, will give an entertainment in the Baptist church at that place on Friday evening, June 22d. The exercises will be varied and entertaining, consisting of essays, recitations, songs by the little ones, fine instrumental music by the Forest City orchestra; recitation by Mrs. Joe Williams; some very fine selections by Mrs. Prof. Johnston's music class. All lovers of such entertainments come out and enjoy a pleasant evening at the trifling expense of ten cents.

—Every intelligent man will cordially admit that a large percentage of the dogs in Oregon should be required to wear the drapery of their couch about their necks and to wear to the dogs the robes of ugly and unshorn ears, the nobodies' darlings which loaf about town with no other object in life than to contract hydrophobia, are of no use to anybody on the earth or in the waters under the earth. But, since they ought to die they should die as peacefully as possible, and without unnecessary agony. The plan of killing off dogs by kicking them and throwing rocks at them is not a commendable one, yet many people seem to think it an admirable method. Dogs that ought to be sleeping with their fathers are living to be kicked, stoned and abused, which is altogether wrong. Let them be killed scientifically, without ostentation or display, but while they live have respect for their bones. Man's inhumanity to dogs makes countless millions howl.

—The people of our State are being nicely goaded by a Chicago firm calling themselves Harting & Clarke. These fellows send out a circular to any one whose address they can get, offering to make a \$35 life size crayon portrait free, if you promise to frame it and exhibit it to your friends. You are told it is a plan to get a sample of their work in your community. In a few days they will send the photograph you receive a printed circular saying that you must purchase a frame of them and that the picture has two days more work to be done on it before it is completed. Prices are sent in this last circular from which you are to make your choice. The nine-dollar frames are dear at your home dealers at \$3. It is all a barefaced scheme to sell a frame at an enormous profit. The picture is a cheap out line solar print on bromide paper that will turn yellow, and is slightly worked with a crayon. It would be dear at \$1.50. Out of every sucker they make about \$5.

—Do you know that the Walter A. Wood is lighter in draft and weight? More compact, firmer and stronger, than the so-called steel-frame machines?
